

The 5<sup>th</sup> edition of the **International Conference on Connected Smart Cities** (CSC 2019) (part of the IADIS Multi Conference on Computer Science and Information Systems 2019) was hosted in Porto, Portugal, during **17-19 July, 2019**.

This conference was organized by the International Association for Development of the Information Society (IADIS) and co-organized by ISEP – Instituto Superior de Engenharia do Porto.

The CSC conference aims at discussing the social, behavioral, technical, economic, and environmental impacts of the introduction of smart city applications and services. The 2019 edition was jointly published with the 12<sup>th</sup> International Conference on ICT, Society and Human Beings (ICT 2019) and 16<sup>th</sup> International Conference Web Based Communities and Social Media 2019 (WBC 2019). These conferences received 244 submissions from more than 36 countries. Each submission was anonymously reviewed by an average of four independent reviewers, to ensure that accepted

submissions were of a high standard. Consequently, only 42 full papers were approved which meant an acceptance rate of 17%. A few more papers were accepted under other categories.

Extended versions of the best papers were selected to be published in:

- ❖ the IADIS International Journal on WWW/Internet (IJWI). ISSN: 1645-7641
- ❖ IADIS International Journal on Computer Science and Information Systems (ISSN: 1646-3692)
- ❖ International Journal of Web Based Communities” (IJWBC - ISSN: 1477 – 8394)

In addition to the presentation of the papers, these events also included two keynote presentations by Prof. Jaime Villate, Faculty of Engineering, University of Porto, Portugal and Prof. Frederico Custódio, Director of the Intelligence and Explorative Research Group at CEiiA, Portugal.

**Keynote Presentation:**

**HOW TO USE E-LEARNING FOR TESTING AND ASSESSING LARGE CLASSES**

by Professor Jaime Villate Faculty of Engineering, University of Porto, Portugal

**Keynote Presentation:**

**SMART AND SUSTAINABLE LIVING COLAB: A ROADMAP TO ACCELERATE URBAN SUSTAINABILITY**

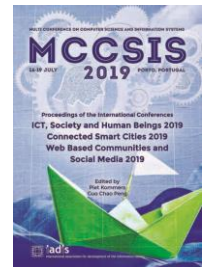

by Prof. Frederico Custódio, Director of the Intelligence and Explorative Research Group at CEiiA, Portugal

The CSC 2019 was published in hard copy (ISBN: 978-989-8533-90-6) by IADIS Press.

**Volume Editors:** Piet Kommers and Guo Chao Peng

**Computer Science and Information Systems Series Editors:** Piet Kommers and Pedro Isaías

**Program Committee Members:**

Agusti Solanas, Rovira i Virgili University, Catalonia

Davide Careglio, Universitat Politècnica de Catalunya, Spain

Giovanni Merlino, University of Messina, Italy

Jorge Gómez-sanz Gomez-sanz, Universidad Complutense De Madrid, Spain

José Luis Hernández Ramos, European Commission, Join Research Centre (JRC), Belgium

Juan Antonio Alvarez-garcía, University of Seville, Spain

Lasse Berntzen, University of South-eastern Norway, Norway

Mani Krishna, University of Massachusetts Amherst, USA

Maria Bermudez-edo, University of Granada, Spain

María Blanca Caminero Herraes, University of Castilla-la Mancha, Spain

Peter Mechant, Ghent University, Belgium

Pierfrancesco Bellini, University of Florence, Italy

Rabinarayan Mahapatra, Texas A&m University, United States

Ramin Yahyapour, GWDG/University Goettingen, Germany

Raquel Martínez España, Catholic University of Murcia, Spain

Riccardo Bettati, Texas A&M University, USA

Rosaldo Rossetti, University of Porto, Portugal

Sandro Leuchter, Mannheim University of Applied Sciences, Germany

Saurabh Garg, University of Tasmania, Australia

Yeh-ching Chung, National Tsing Hua University, Taiwan

Zeeshan Pervez, University of the West of Scotland, United Kingdom

Zena Wood, University of Greenwich, United Kingdom

Zhu Ye, Cleveland State University, USA
